- D. Layer 2 is down on the controller.

Answer: D

QUESTION 2

Which capability is supported by Cisco Discovery Protocol but not by LLDP-MED?

- A. LAN speed and duplex discovery
- B. trust extension
- C. location identification discovery
- D. power discovery
- E. network policy discovery

Answer: B

Explanation/Reference:

Cisco Discovery Protocol provides an additional capability not found in LLDP-MED that allows the switch to extend trust to the phone. In this case, the phone is now trusted to mark the packets received on the PC port accordingly. This feature can be used to off-load the switch because now it does not need to police the information being received from the phone.

QUESTION 3

Which three Cisco Unity Connection call handler greetings can be overridden by the internal greeting? (Choose three.)

- A. alternate
- B. holiday
- C. error
- D. busy

- E. closed
- F. standard

Answer: BEF

Explanation/Reference:

This greeting overrides the Standard, Closed, and Holiday greetings but only for internal callers or users defined in Cisco Unity Connection. Because the mentioned three greetings are defined for external users.
